

ICAO Flight Planning - Monthly Meeting of EAA Chapter 252

IMC Club Fox Valley

CFI Mike Bauer will present an overview of filing ICAO flight plans for instrument flight in the NAS (soon to replace the FAA domestic flight plan). Use real world scenarios to increase your level of safety in the IFR environment. Safe instrument flying is a matter of mitigating risk, personal minimums and standard operating procedures. If you have and use sound judgment, establish personal minimums and good procedures, you can enjoy a long and successful career of instrument flying. The EAA Chapter 252 IMC Club Fox Valley (WI) provides organized "hangar flying" focused on building proficiency in instrument flying. An instrument rating is not required for attendance.

Directions: Leadership Classroom -- please use employee parking entrance to Museum (North of main entrance) and enter doors under the simulated control tower cab.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
